

Baltimore County Public Schools
Organizational Structures,
 (Definitions of Schools, Centers, and Programs)
School Year 2017 – 2018

Baltimore County Public Schools defines three organizational structures that are used to deliver instructional programs to students. By definition, each of these organizational structures have designated instructional staff. The three structures are Schools, Centers, and Programs. The two criteria used to distinguish among these three types are student enrollment and test information reporting. In most cases, each School, Center, or Program is housed in a separate and distinct facility, whether owned or leased by the Board of Education. However, since exceptions do exist, the following definitions are applied for clarity.

School – An organizational structure where students are counted as enrolled and testing information is reported. All testing information is reported from schools. Schools are further designated as Elementary Schools, Middle Schools, High Schools, and Special Education Schools.

Center – An organizational structure where students are counted as enrolled but testing information is not reported. Testing information for students enrolled at a Center is reported from the home school of the student. Most Centers are Alternative Centers, with the exception of Campfield Early Learning Center.

Program – An organizational structure where no students are counted as enrolled and testing information is not reported. Students are counted as enrolled at their home schools. Testing information for students participating in a Program is reported from the home school of the student.

The following table summarizes this information:

| Organizational Structure | Student Enrollment | Testing Information Reported | Organizational Structures for the 2017-2018 School Year |
|--|---------------------------|-------------------------------------|--|
| School | Yes | Yes | 161 |
| Center | Yes | No | 9 |
| Program | No | No | 3 |
| Total Organizational Structures | | | 173 |

The table that follows lists each School, Center, and Program for the 2017-2018 school year with the Planning Area in which it is located. The designation of REGION means a center or program operates from more than one location. The Planning Areas include:

- Southwest Area (SW)
- Northwest Area (NW)
- Central Area (C)
- Northeast Area (NE)
- Southeast Area (SE)
- Regional Center/Program (REGION)
